SUMERSPORTS

Week 4 Review

Here's what you need to know.

A Quick Note

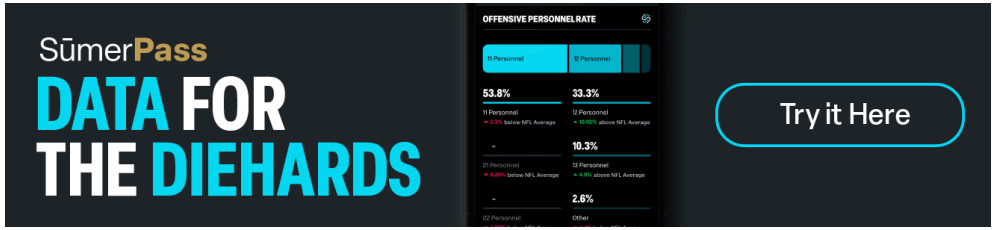

- The data you see here comes from SumerSports' SumerPass. We recommend you check it out if you want to dive deeper into the data, build your own stats, or get live charting on game days.
- Our weekly reviews will have the most important stats from Sunday, takeaways from three big games, and game boxes for those matchups. The rest of the game review boxes can be found on Tej's page on Monday morning.

The Sunday Stat Scroll

Here are some of our favorite stats from Sunday.

- 2026 has five 0-4 teams, tying 2009 and 2019 for the most of any season in the 2000s.
- Kenneth Walker leads all running backs in EPA/rush, yards after contact, and missed tackles forced (before Sunday Night Football).
- The Buffalo Bills have the 4th highest pressure rate but rank 28th in EPA/dropback when they generate a pressure.
- Brock Purdy has a 0.0% sack rate this season.
- When the Rams went up tempo against the Eagles, they generated 12 first downs, had 0.33 EPA/play, and had a 66.7% success rate.
- Abdul Carter had a 99th percentile pass rush win rate on Sunday.

- Jordan Love was sacked 0 times on Sunday and faced the 3rd lowest pressure rate of his career.
- Zay Flowers ran the most slot routes in a game in his career against the Titans.
- Flowers has two games with 110+ receiving yards in the first half already this season. Only two receivers did that all of last year.
- T.J. Hockenson had 13 catches on 13 targets. This was two short of the record for most targets in a game where all targets were caught.
- Jalen Hurts was 5/15 for 46 yards against the blitz.
- Jameis Winston was 5/6 for 166 yards and a touchdown on 20+ throws this week.
- CeeDee Lamb had 17 catches on 21 targets, both the 2nd most in a game since 2016.
- Tetairoa McMillan had 5 catches on 5 targets for 83 yards from the slot.
- The Houston Texans have allowed the most receiving yards on contested catches in the league.

Three Takeaways

Jacksonville Jaguars 22, Cincinnati Bengals 17: The Jaguars are the top cat.

- The Jaguars produced the 3rd best EPA/play of the week against a Bengals defense that entered Week 4 7th in EPA/play allowed. Trevor Lawrence had 0.51 EPA/play against zone coverage (0.69 vs. cover 3) and -0.10 against five snaps of man coverage.

- Joe Burrow went 8/10 for 86 yards when the Jaguars decided to blitz in this matchup. He had a fast 1.93 second average time to throw on those snaps, which led to just a 20% pressure rate. When the Jaguars didn't blitz, Burrow threw two interceptions, was pressured on 41.7% of dropbacks, and had a 2.74 average time to throw.

- Arik Armstead tallied seven pressures on the day, Bhayshul Tuten had seven 15+ MPH runs, and Brenton Strange had seven catches on a 34.8% target share.

Samaje Perine	3	2.33	-0.70	0.0%

Kansas City Chiefs 30, Las Vegas Raiders 27: Kenneth Walker is still running.

- The Kansas City Chiefs were one of a handful of teams that we expected to increase their under center rate during the 2026 season. Through four weeks, the Chiefs are around the middle of the pack in under center rate, but rank within the top five in under center EPA/play, under center success rate, and under center EPA/designed rush.

- Kenneth Walker has been a fantastic addition the Chiefs offense, and he had 177 rushing yards and two touchdowns on Sunday. He forced five missed tackles, had four runs of over 10 yards, and had 140 rushing yards on under center plays.

- Patrick Mahomes was 3/12 for 76 yards and a 26.7% success rate when pressured, but was 12/18 for 149 yards, two touchdowns, and a 55.6% success rate when kept clean. The Chiefs put together just enough explosive plays to improve to 4-0.

KC Offense vs. LV Defense

Overall

San Francisco 49ers 24, Denver Broncos 14: Brock Purdy still hasn't been sacked yet this season.

- Though the 49ers pulled away at the end of this game, the Broncos defense did make life hard on San Francisco's offense. Brock Purdy was 3/5 for 11 yards against man coverage in the first half, and Denver's defense was effective in middle of the field closed looks over the first two quarters. Purdy did end the day with a high dropback success rate despite the tighter defensive play to start the game.

- Bo Nix was 14/19 for 119 yards on throws 0-9 yards down the field but was 2/10 for 43 yards on throws 10+ yards down the field. Nix ended the day 25/42 with an average depth of target of just 5.26 yards. Nix had just a 26.3% success rate on 19 attempts against cover 3, and had a 35.7% success rate on early downs versus a 50% success rate on late downs.

DEN Offense vs. SF Defense
